

## “Empty Shell Model”

The Empty Shell Model Camper is the most durable, lightest weight, lowest profile, all welded aluminum “flex-frame” Pop-Up Camper in the RV industry. This model allows our customers to finish the interior to meet their specific needs or simply to provide shelter from the weather, a comfortable place to sleep, and lots of room for storage.

**\$ 8,695.00 Base Price**

### STANDARD FEATURES INCLUDE:

1. Queen Sized Extended Cab-over Bed w/ Mattress
2. Two LED Interior Lights
3. Outside LED Porch Light
4. Large Passenger Side Louvered Window
5. Basic Roof Vent
6. Finished Interior Walls and Floor
7. Fire Extinguisher
8. Screen Door
9. Jack Brackets Only (Steel Brackets)

The Four Wheel Pop-Up Camper Shell is available in all models that fit virtually all truck applications. The Grandby Shell, which fits full size, long bed trucks, weighs only an amazing 750 lbs. The Shell model for mini trucks is around 595 lbs. Yet all shell models have the same construction that allows the camper to flex with the torque generated by the bed of the truck while still maintaining its structural integrity.

A full variety of options are available to assist our customers in creating a camper that best suits their particular needs. Special options are also available for the shell models, due to the open interior, such as a driver's side louvered window, a couch/bed installed on the driver's side or passenger's side, furnace w/ thermostat, etc.

For prices and a full description of what can, and cannot, be accommodated on the shell models please call or e-mail us. Given our 40+ years of experience in manufacturing the Four Wheel Pop-Up Campers, we can help you identify and understand the specific limits involved, and the most effective and cost saving way to accommodate your needs.
